

VAIBHAV KACHGUNDE

Java Full Stack Developer

Pune, Maharashtra, India | +91 7498452088 | kachgundevaibhav220@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on internship and project experience building database-driven, CRUD-based, MVC web applications using Core Java, JDBC, Servlets, JSP, Spring, Spring Boot, Hibernate/JPA, RESTful web services, MySQL, HTML5, CSS3, JavaScript, and Bootstrap. Comfortable working across frontend and backend layers of a full stack application, from UI screens to database persistence and API-based data exchange (JSON). Seeking an entry-level Java Full Stack Developer role to contribute to production applications and grow as a software engineer.

TECHNICAL SKILLS

Languages: Core Java (OOP), Advanced Java, JavaScript, C++

Backend: JDBC, Servlets & JSP, Spring, Spring Boot, Spring MVC, Hibernate/JPA, RESTful Web Services, JSON

Frontend: HTML5, CSS3, Bootstrap, JavaScript, Responsive Web Development

Databases: SQL, MySQL

Tools & Practices: Git, GitHub, Maven, Eclipse IDE, VS Code

Core Concepts: OOP, Collections, Exception Handling, MVC Architecture, Multithreading basics

INTERNSHIP EXPERIENCE

Java Full Stack Developer Intern — Cravita Technologies Pvt.Ltd, Pune

Nov 2025 – Apr 2026

- Contributed as a Full Stack Developer Intern to both frontend and backend development of a live business module using **Core Java, JDBC, Servlets, JSP, HTML, CSS, JavaScript, and MySQL**.
- Built and modified **6+ CRUD-based screens** for an assigned business module, handling create, update, retrieve, and delete operations end-to-end for real users.
- Collaborated with senior developers to identify and fix **15+ bugs** during sprint cycles, improving module stability and overall code quality.
- Followed MVC architecture and coding best practices while working within an Agile team environment on a production codebase.

PROJECTS

Employee Leave Management System (ELMS)

Core Java, JSP, Servlets, JDBC, Hibernate/JPA, MySQL, CSS, JavaScript, Bootstrap

- Developed a web-based employee leave management system with separate **employee and admin workflows** supporting session-based, role-based login access.
- Implemented end-to-end modules for employee management, leave application, approval/rejection, and leave history tracking, reducing manual leave-tracking effort.
- Used JDBC, DAO, and POJO design patterns for structured database connectivity and CRUD operations across **5+ entities**.

Pathology Lab Website (Patho-care)

HTML5, CSS3, Bootstrap, JavaScript

- Designed a responsive pathology lab website with a clean, user-friendly interface across **5+ pages**, including lab services, test information, and online report access.
- Improved usability and load speed using Bootstrap for mobile-friendly, cross-device compatibility.

CERTIFICATIONS

- Java Full Stack Development — Fortune Cloud Technology, Pimpri, Pune
- C & C++ Programming — Disha Institute, Dehugaon, Pune

EDUCATION

Bachelor of Computer Applications (BCA)

Siddhant College of Management Studies, Pune

Graduated 2026
