PROFESSIONAL SUMMARY

Java Full Stack Developer (Fresher, BCA 2026) with hands-on internship and project experience building responsive, database-driven, MVC web applications using HTML5, CSS3, JavaScript, Bootstrap, Core Java, Servlets, JSP, Spring Boot, Hibernate/JPA, RESTful web services, and MySQL. Comfortable working across frontend and backend, from UI development and interactive features to database persistence and API-based data exchange (JSON). Writes clean, maintainable code, tests websites, fixes bugs, and troubleshoots technical issues on live projects using Git. Seeking a Web Developer Intern role to contribute to real-world projects and grow as a software engineer.

TECHNICAL SKILLS

Languages: Core Java (OOP), Advanced Java, JavaScript, C++

Backend: JDBC, Servlets & JSP, Spring, Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate/JPA, RESTful Web Services, JSON

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design, UI Development, Interactive Features

Databases: SQL, MySQL, Database Integration

Tools & Practices: Git, GitHub, Version Control, Maven, Eclipse IDE, VS Code, Spring MVC, Agile, Debugging, Troubleshooting

Core Concepts: Full Stack Development, OOP, Collections, Exception Handling, MVC Architecture, Multithreading, Clean Code

Soft Skills: Teamwork, Collaboration, Effective Communication, Adaptability, Problem-Solving, Willingness to Learn

INTERNSHIP EXPERIENCE

Java Full Stack Developer Intern — Cravita Technologies Pvt. Ltd, Pune

Nov 2025 – May 2026

- Contributed as a Full Stack Developer Intern to both frontend and backend web development of a live business module using Core Java, JDBC, Servlets, JSP, HTML, CSS, JavaScript, and MySQL.
- Built and modified 6+ CRUD-based web screens (UI development) for an assigned business module, handling create, update, retrieve, and delete operations end-to-end with the database for real users.
- Collaborated with senior developers to test, identify, fix, and troubleshoot 15+ bugs during sprint cycles, improving module stability and overall code quality.
- Followed MVC architecture and wrote clean, efficient, maintainable code using best practices while working within an Agile team environment on a live production codebase.

PROJECTS

Smart Real Estate AI — AI-Based Smart Real Estate Platform

Java*, *Spring Boot*, *Spring Security*, *Spring Data JPA*, *Hibernate*, *REST API*, *MySQL*, *HTML5*, *CSS3*, *JavaScript*, *Bootstrap

- Developed a full-stack real estate web application with secure authentication, property CRUD, search/filtering, user profiles, and enquiry management.
- Implemented Admin/User role-based access, property AVAILABLE/SOLD status tracking, and AI-based property recommendations based on location, budget, property type, and bedrooms.
- Built a responsive, user-friendly frontend using HTML5, CSS3, JavaScript & Bootstrap, and integrated REST APIs with MySQL database using JPA/Hibernate.

Employee Leave Management System (ELMS) — Web-Based Employee Leave Management Application

Core Java*, *JSP*, *Servlets*, *JDBC*, *Hibernate*, *MySQL*, *CSS*, *JavaScript*, *Bootstrap

- Developed a web-based employee leave management application with separate employee and admin workflows supporting session-based, role-based login access.
- Implemented end-to-end modules for employee management, leave application, approval/rejection, and leave history tracking, reducing manual leave-tracking effort.
- Used JDBC, DAO, and POJO design patterns for structured database connectivity and CRUD operations across 5+ entities.

CERTIFICATIONS

- Java Full Stack Development — Fortune Cloud Technology, Pimpri, Pune
- C & C++ Programming — Disha Institute, Dehugaon, Pune

EDUCATION

Bachelor of Computer Applications (BCA) — Siddhant College of Management Studies, Pune

2023 – 2026
